PROFESSIONAL SUMMARY

Experience in bridging design strategy and technical implementation across web, mobile and game development platforms. Combines design expertise in user research, wire-framing, and Figma prototyping with technical proficiency in MERN stack. Proven track record of driving measurable results: **30% increase in user retention**, **15% boost in customer satisfaction**, and **40% improvement in design-to-development efficiency**. Skilled in A/B testing, usability evaluation, design systems, and cross-functional collaboration.

EDUCATION

Aug 2021 – June 2025

BS Computer Science, FAST - National University of Computer and Emerging Sciences (NUCES)

Islamabad

EMPLOYMENT HISTORY

July 2025 – June 2026

Product Analyst at US Mobile, Lahore

Collaborated with engineering, design, and support teams to prioritize roadmap initiatives, **driving a 15% increase in CSAT**. **Led analysis of 1,000+ support tickets** and feedback items, uncovering product gaps that informed new feature opportunities across the mobile service platform. Identified recurring pain points that helped cut churn risk and improve customer retention.

May 2024 – June 2025

Product Designer at The Essential Studios , Islamabad

Built scalable design systems and component libraries in Figma, setting consistent standards that improved collaboration between design and development teams. Presented research-backed recommendations that influenced 3 key roadmap decisions, ensuring a user-centered product strategy. Delivered complete documentation including user flows, interaction specifications, and responsive guidelines that streamlined onboarding for new developers and accelerated design-to-development cycles.

March 2024 – April 2024

UI/UX Designer Intern at Septem Systems, Lahore

Develop wireframes, mockups, and high-fidelity prototypes using Figma for web and mobile applications. Conduct usability testing sessions and iterate designs based on user feedback and analytics data. Contribute to building and maintaining design systems to ensure consistency across multiple product touchpoints.

June 2024 – August 2024

Web Development Internee at Web3gle, Lahore

Designed and implemented responsive user interfaces using React.js and Tailwind CSS, **improving user retention by 30%**. Conducted systematic A/B testing on UI components to validate design decisions and optimize conversion funnels for e-commerce clients. Collaborated with designers to translate mockups into pixel-perfect, accessible web interfaces. **Improved website performance by 25%** through code optimization and responsive design best practices

SKILLS

UX/UI Design: User Testing, Wireframing, Low/High-Fidelity Prototyping, Interaction Design, Visual Design, Responsive Design, Usability Testing, Heuristic Evaluation, User Journey Mapping, User Flows, Accessibility (WCAG)
Design Tools: Figma, Adobe XD, MarvelApp, Miro, Canva
Research & Testing: A/B Testing, Surveys, Heatmaps, Stakeholder Interviews, User Personas,
Development: MERN Stack, JavaScript , HTML5, CSS3, Tailwind CSS, Bootstrap, RESTful APIs, Git/GitHub, Performance Optimization
Design Systems: Component Libraries, Style Guides, Design Documentation, Design-to-Dev Handoff
Product & Product management: Product Roadmapping, Feature Prioritization, Sprint Planning, Agile/Scrum, Stakeholder Communication, Customer Feedback Analysis, Trello, Jira, Notion
Analytics: Tableau, SQL, User Behavior Analysis, Conversion Funnel Optimization, KPI Tracking
Additional: Unity (C#), Game Development, Database Design, VS Code, Blender (Basics), C++, Python, Java

LANGUAGES

English

highly-proficient

Urdu

Native speaker

PROJECTS

Mood Mosaic (MarvelApp, Figma, Trello): Designed a mood-tracking app using color-based pixel art. Conducted user research and developed wireframes, flows, and a high-fidelity prototype with features like mosaic creation, timeline view, and anonymous sharing.

Societify(JavaFX ,C#,SQL, Society management):

Built a full-stack fashion app with user login, dynamic product listings, shopping cart, and secure payments. Included an admin dashboard for managing inventory and orders, and build a responsive UI for better shopping experience.

Ecommerce Fashion Website(Figma, React.js, Node.js, MongoDB, Express.js (MERN stack)) Developed a university society management platform for task handling, communication, and event coordination. Focused on collective features to streamline operations across student societies.

CERTIFICATION

AWS Academy Cloud Foundations
